

Sloan Lubrication Systems Partners with Cooper Machinery Services

Protect your investment with Cooper Machinery Services' top-notch engine and compressor parts and services.

COOPER | MACHINERY SERVICES

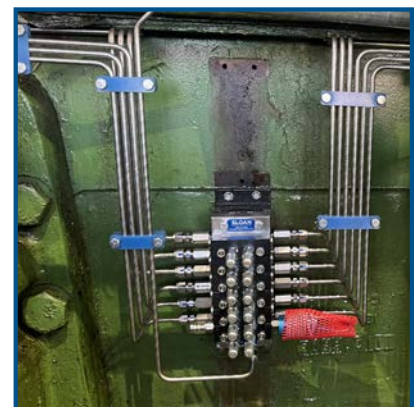

Cooper Machinery Services leads the industry when it comes to high quality compression services and components. Accordingly, Sloan has teamed with Cooper to help our customers protect their investment with an optimized lubrication system. When you partner with Sloan and Cooper, you are investing in peace of mind.

Benefits:

- Optimized lubrication system design
- Maximized compressor valve life
- Reduced lube oil carryover
- Prevent equipment damage and downtime
- Fail-Safe protection for your critical machinery

Protect Your Investment.

Services Offered:

System Replacement: Complete installation of a new industry leading lubrication system

TriCip System

Realize up to a 90% reduction of lubrication consumption with our TriCip Solution. TriCip combines a state-of-the-art lubrication system with an advanced proprietary lubrication fluid and IIOT monitoring and control for fully automated delivery.

Watchman System

Our tried-and-true workhorse, the Watchman provides protected lubricant supply and precision delivery in a modular, plug and play design. The Watchman consolidates critical lubrication components into a remote unit that is easier to service and maintain, improving reliability, fail-safe protection, and lifespan.

Custom Systems

Sloan Lubrication Systems has custom options to meet all engine and compressor requirements including: Original Equipment Manufacturer-style mounting configurations, auxiliary shaft drives, controls and automation, environmental enclosures, and redundancy.

Service

We service all makes and models of lubrication systems, and provide as-found condition analysis, preventative maintenance, emergency services, training, and spares evaluation.

Tubing installation

Our tubing expertise is not limited to lubrication lines. Sloan Lubrication Systems offers air lines, control panel, and unloader tubing installation.
