

## How expensive is downtime?

With the **Sloan Service Plan**, you will never find out. Have peace of mind that your equipment is expertly maintained and operating at peak efficiency.

# Service Plans

## Benefits

- Extended warranty
- 10% discount on parts
- Low upfront cost
- 20% discount on service

Is the condition of your compressor lubrication systems keeping you up at night? If you have not tested your divider blocks in the past year, then it should be.

Time and time again, we find the number one cause of system failure is deferred maintenance. A properly maintained lubrication system is fail safe, but without regular maintenance that capability is compromised.

If you are not certain about the integrity of your lubrication systems, a Sloan Service Plan might be right for you.

Plant operations have undergone a major shift. Managers are challenged to do more with fewer employees, leaving critical preventative maintenance tasks unaddressed. There is never a good time for a downtime. With Sloan Service Plans, you can be confident that we are conducting complete maintenance and fully testing your lubrication systems. Talk to our experts today about the Sloan Service Plan that is right for you.

Sloan Service Plans offer significant savings over purchasing one-off preventative maintenance services. We offer tiered service plans to best fit your specific needs.

## Sloan Service Plan - **Basic**

- **For new systems**
- **Yearly recertification** – full inspection, preventative maintenance service and commissioning
